Product Safety & Liability Reporter 2005

On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F. Fourie 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

New Car Buying Guide Consumer Reports (Firm) 2006-06 Based on tests conducted by Consumers Union, this guide rates new cars based on performance, handling, comfort, convenience, reliability, and fuel economy, and includes advice on options and safety statistics.

How To Rebuild and Modify Your Manual Transmission Robert Bowen

Playing Dead Elizabeth Greenwood 2017-08-15 Is it still possible to fake your own death in the twenty-first century? With six figures of student loan debt, Elizabeth Greenwood was tempted to find out. So off she sets on a darkly comic foray into the world of death fraud, where for \$30,000 a consultant can make you disappear--but your suspicious insurance company might hire a private detective to dig up your coffin...only to find it filled with rocks. Greenwood tracks down a British man who staged a kayaking accident and then returned to live in his own house while all his neighbors thought he was dead. She takes a call from Michael Jackson (no, he's not dead--or so her new acquaintances would have her believe), stalks message boards for people contemplating pseudocide, and gathers intel on black market morgues in the Philippines, where she may or may not obtain some fraudulent goodies of her own. Along the way, she learns that love is a much less common motive than money, and that making your death look like a drowning virtually guarantees that you'll be caught. (Disappearing while hiking, however, is a way great to go.) *Playing Dead* is a charmingly bizarre investigation in the vein of Jon Ronson and Mary Roach into our all-too-human desire to escape from the lives we lead, and the men and women desperate enough to give up their lives--and their families--to start again. "Delivers all the lo-fi spy shenanigans and caught-red-handed schadenfreude you're hoping for." --NPR "A lively romp." --The Boston Globe "Grim fun." --The New York Times "Brilliant topic, absorbing book." --The Seattle Times "The most literally escapist summer read you could hope for." --The Paris Review
