Maggie for Hire Kate Danley 2011-09-01 When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. WARNING: This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

The Pustoy Philippe Blenkiron 2014-05-31 Britain, in the mid 21st century. A new prime minister, Lev Solokov, is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillipe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

Engineering BGM Alan Brace 2007-11-01 Also known as the Libor market model, the Brace-Gatarek-Musiela (BGM) model is becoming an industry standard for pricing interest rate derivatives. Written by one of its developers, Engineering BGM builds progressively from simple to more sophisticated versions of the BGM model, offering a range of methods that can be programmed into production code to suit readers' requirements. After introducing the standard lognormal flat BGM model, the book focuses on the shifted/displaced diffusion version. Using this version, the author develops basic ideas about construction, change of measure, correlation, calibration, simulation, timeslicing, pricing, delta hedging, barriers, callable exotics (Bermudans), and vega hedging. Subsequent chapters address cross-economy BGM, the adaptation of the BGM model to inflation, a simple tractable stochastic volatility version of BGM, and Brazilian options suitable for BGM analysis. An appendix provides notation and an extensive array of formulae. The straightforward presentation of various BGM models in this handy book will help promote a robust, safe, and stable environment for calibrating, simulating, pricing, and hedging interest rate instruments.

Radar Instruction Manual United States. Maritime Administration 2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

Finite Element Procedures Klaus-Jürgen Bathe 1996 BASIC APPROACH: Comprehensive -- this text explores the "full range" of finite element methods used in engineering practice for actual applications in computer-aided design. It provides not only an introduction to finite element methods and the commonality in the various techniques, but explores state-of-the-art methods as well -- with a focus on what are deemed to become "classical techniques" -- procedures that will be "standard and authoritative" for finite element analysis for years to come. FEATURES: presents in sufficient depth and breadth elementary concepts AND advanced techniques in statics, dynamics, solids, fluids, linear and nonlinear analysis. emphasizes both the physical and mathematical characteristics of procedures. presents an abundance of worked-out examples and various complete program listings. includes many exercises/projects that often require the use of a computer program.

The Heart of Change Field Guide Dan S. Cohen 2005-11-09 In 1996, John P. Kotter's Leading Change became a runaway best seller, outlining an eight-step program for organizational change that was embraced by executives around the world. Then, Kotter and co-author Dan Cohen's The Heart of Change introduced the revolutionary "see-feel-change" approach, which helped executives understand the crucial role of emotion in successful change efforts. Now, The Heart of Change Field Guide provides leaders and managers tools, frameworks, and advice for bringing these breakthrough change methods to life within their own organizations. Written by Dan Cohen and with a foreword by John P. Kotter, the guide provides a practical framework for implementing each step in the change process, as well as a new three-phase approach to execution: creating a climate for change, engaging and enabling the whole organization, and implementing and sustaining change. Hands-on diagnostics—including a crucial "change readiness module"—reveal the dynamics that will help or hinder success at each phase of the change process. Both flexible and scaleable, the frameworks presented in this guide can be tailored for any size or type of change initiative. Filled with practical tools, checklists, and expert commentary, this must-have guide translates the most powerful approaches available for creating successful change into concrete, actionable steps for you and your organization. Dan Cohen is the co-author, with John P. Kotter, of The Heart of Change, and a principal with Deloitte Consulting, LLC.

Speaking to the Dead with Radios Michael Edwards 2012-09-21 Google Ghost Box builders Steve Hultay, Andrew Openlander, Andre Wullaert, Greg Manchester and Wes Kink to purchase your first box and begin recording. .To learn the latest about home built ghost boxes and the newest hacks, join the Worldwide Radio Sweep Ghost Box EVP Alliance at this facebook group at https://www.facebook.com/groups/102193593178906/Speaking to the Dead with Radios is a process to communicate with our deceased loved ones using a hacked AM/FM or home built radio with a tape or a digital recorder. You do not need to be a psychic, a medium or have any paranormal gifts to make contact and record audio messages from your deceased loved ones or even from your deceased pets using these devices. Within this book starting in chapter one, I will outline and discuss a brief history of Radio Sweep (Ghost Box) Electronic Voice Phenomena. In chapter two, I will teach you the concept of speaking to the dead with radios one in which you can encounter the dead through real time spirit communication. Chapter three is where you will learn which store bought radios can be hacked, made to work as a Radio Sweep (Ghost Box) EVP device. In chapter four, I will teach you about unhappy spirits you may encounter, and I will teach you about Technicians, kind and loving spirits whose sole purpose is to help ensure your recording sessions runs smoothly without issues. Chapter five teaches you about preferred radio sweep equipment, and how to make an appointment to record with the dead. In chapter six, I will outline what encompasses a Radio Sweep (Ghost Box) EVP recording session and discuss the various session types you may engage in. Chapter seven is where I will show you how to upload your digital recorder's wma file to your computer, and there on convert it to a wave file using NCH(r) software. In chapter eight, I will teach you how to segment or break up your question with answer files, and teach you how to de-noise them if necessary. Chapter nine which is one of the most important chapters in this book is where I will teach you how to classify recorded messages as Radio Traffic, Suspect Paranormal, and Paranormal. In chapter ten I will teach you how to listen to and transcribe any recorded Suspect Paranormal or Paranormal messages into a Microsoft(r) Excel worksheet. Chapter twelve is where I will share and discuss a variety of session types I have recorded to give you an idea how you should expect cases of this type may proceed if you decide to engage a recording session of this type. Lastly in chapter thirteen, I will share with each of you some ideas I have what Radio Sweep (Ghost Box) EVP devices can be used for going forward. Please note that within this book are the names of people that build and sell home made radio sweep - ghost boxes. I am sad to report that two of these box builders have passed away since this book was published. They are Joseph Angelo Cioppi Senior and Frank Sumption Sr. I would like to introduce a radio sweep ghost box builder not mentioned in this book. His name is Andrew Openlander of Chicago Spirit Wave "Google him". Andrew like the others builds amazing radio sweep - ghost boxes and he ships worldwide.

Aftertime Sophie Littlefield 2013-04-01 Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world....

Javatrekker Dean Cycon 2007-10-17 In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. In Javatrekker: Dispatches from the World of Fair Trade Coffee, a unique hybrid of Fair Trade business, adventure travel, and cultural anthropology, author Dean Cycon brings readers face-to-face with the real people who make our morning coffee ritual possible. Second only to oil in terms of its value, the coffee trade is complex with several levels of middlemen removing the 28 million growers in fifty distant countries far from you and your morning cup. And, according to Cycon, 99 percent of the people involved in the coffee economy have never been to a coffee village. They let advertising and images from the major coffee companies create their worldview. Cycon changes that in this compelling book, taking the reader on a tour of ten countries in nine chapters through his passionate eye and unique perspective. Cycon, who is himself an amalgam-equal parts entrepreneur, activist, and mischievous explorer-has traveled extensively throughout the world's tropical coffeelands, and shows readers places and people that few if any outsiders have ever seen. Along the way, readers come to realize the promise and hope offered by sustainable business principles and the products derived from cooperation, fair pricing, and profit sharing. Cycon introduces us to the Mamos of Colombia-holy men who believe they are literally holding the world together-despite the severe effects of climate change caused by us, their "younger brothers." He takes us on a trip through an ancient forest in Ethiopia where many believe that coffee was first discovered 1,500 years ago by the goatherd Kaldi and his animals. And readers learn of Mexico's infamous Death Train, which transported countless immigrants from Central America northward to the U.S. border, but took a horrifying toll in lost lives and limbs. Rich with stories of people, landscapes, and customs, Javatrekker offers a deep appreciation and understanding of the global trade and culture of coffee. In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. What is Fair Trade Coffee? Coffee prices paid to the farmer are based on the international commodity price for coffee (the "C" price) and the quality premium each farmer negotiates. Fair Trade provides an internationally determined minimum floor price when the C plus premium sinks below $1.26 per pound for conventional and $1.41 for organics (that's us!). As important as price, Fair Trade works with small farmers to create democratic cooperatives that insure fair dealing, accountability and transparency in trade transactions. In an industry where the farmer is traditionally ripped off by a host of middlemen, this is tremendously important. Cooperatives are examined by the Fairtrade Labeling Organization (FLO), or the International Fair Trade Association (IFAT), European NGOs, for democratic process and transparency. Those that pass are listed on the FLO Registry or become IFAT members. Cooperatives provide important resources and organization to small farmers in the form of technical assistance for crop and harvest improvement, efficiencies in processing and shipping, strength in negotiation and an array of needed social services, such as health care and credit. Fair Trade also requires pre-financing of up to sixty percent of the value of the contract, if the farmers ask for it. Several groups, such as Ecologic and Green Development Fund have created funds for pre-finance lending.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
