Archives in Russia: A Directory and Bibliographic Guide to Holdings in Moscow and St.Petersburg Patricia Kennedy Grimsted 2016-04-01 This is a comprehensive directory and bibliographic guide to Russian archives and manuscript repositories in the capital cities of Moscow and St. Petersburg. It is an essential resource for any researcher interested in Russian sources for topics in diplomatic, military, and church history; art; dance; film; literature; science; ethnography; and geography. The first

part lists general bibliographies of relevant reference literature, directories, bibliographic works, and specialized subject-related sources. In the following sections of the directory, archival listings are grouped in institutional categories. Coverage includes federal, ministerial, agency, presidential, local, university, Academy of Sciences, organizational, library, and museum holdings. Individual entries include the name of the repository (in Russian and English), basic information on location, staffing, institutional history, holdings, access, and finding aids. More comprehensive and up-to-date than the 1997 Russian Version, this edition includes Web-site information, dozens of additional repositories, several

hundred more bibliographical entries, coverage of reorganization issues, four indexes, and a glossary.

Simple Performance Tester for Superpave Mix Design Ramon Francis Bonaquist 2003 The global response to COVID-19 has demonstrated the importance of vigilance and preparedness for infectious diseases, particularly influenza. There is a need for more effective influenza vaccines and modern manufacturing technologies that are adaptable and scalable to meet demand during a pandemic. The rapid development of COVID-19 vaccines has demonstrated what is possible with extensive data sharing, researchers who have the necessary resources and novel technologies to conduct and apply their research, rolling review by regulators, and public-private partnerships. As demonstrated throughout the response to COVID-19, the process of research and development of novel vaccines can be significantly optimized when stakeholders are provided with the resources and technologies needed to support their response. Vaccine

Research and Development to Advance Pandemic and Seasonal Influenza Preparedness and Response focuses on how to leverage the knowledge gained from the COVID-19 pandemic to optimize vaccine research and development (R&D) to support the prevention and control of seasonal and pandemic influenza. The committee's findings address four dimensions of vaccine R&D: (1) basic and translational science, (2) clinical science, (3) manufacturing science, and (4) regulatory science.

Developments in Fiber-Reinforced Polymer (FRP) Composites for Civil

Engineering Nasim Uddin 2013-05-15 The use of fiber-reinforced polymer

(FRP) composite materials has had a dramatic impact on civil engineering

techniques over the past three decades. FRPs are an ideal material for

structural applications where high strength-to-weight and stiffness-to-weight

ratios are required. Developments in fiber-reinforced polymer (FRP)

composites for civil engineering outlines the latest developments in fiber-

reinforced polymer (FRP) composites and their applications in civil

engineering. Part one outlines the general developments of fiber-reinforced

polymer (FRP) use, reviewing recent advancements in the design and

processing techniques of composite materials. Part two outlines particular

types of fiber-reinforced polymers and covers their use in a wide range of

civil engineering and structural applications, including their use in disaster-resistant buildings, strengthening steel structures and bridge superstructures. With its distinguished editor and international team of contributors, *Developments in fiber-reinforced polymer (FRP) composites for civil engineering* is an essential text for researchers and engineers in the field of civil engineering and industries such as bridge and building construction. Outlines the latest developments in fiber-reinforced polymer composites and their applications in civil engineering Reviews recent advancements in the design and processing techniques of composite materials Covers the use of particular types of fiber-reinforced polymers in a wide range of civil engineering and structural applications

Handbook of Emergency Management Concepts Michael L. Madigan

2017-12-06 This book provides a step-by-step process that focuses on

how to develop, practice, and maintain emergency plans that reflect what

must be done before, during, and after a disaster, in order to protect

people and property. The communities who preplan and mitigate prior to

any incident will be better prepared for emergency scenarios. This book

will assist those with the tools to address all phases of emergency

management. It covers everything from the social and environmental

processes that generate hazards, to vulnerability analysis, hazard

mitigation, emergency response, and disaster recovery.
