

Electronics Buying Guide 2008

Plunkett's Entertainment and Media Industry Almanac Jack W. Plunkett 2007 The electronic age is bringing sweeping changes to entertainment and media of all kinds, including publishing, broadcasting and film. Multimedia, the Internet and other digital media outlets for entertainment and information are being refined at a rapid rate. Media giants are merging and making big acquisitions. This book covers these exciting developments and provides profiles on hundreds of leading firms in film, radio, television, cable, new media, and publishing of all types including books, magazines and newspapers. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. You'll get in-depth profiles of nearly 400 of the world's top Entertainment & Media firms: our own unique list of companies that are the leaders in this field. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful corporations in all facets of the Entertainment and Media Business, from broadcasters to film production companies, casino operators to theme park companies, publishers of books and magazines to video game designers, and much more. Our corporate profiles include executive contacts, growth plans, financial records, address, phone, fax and much more. This innovative book offers unique information, all indexed and cross-indexed more for each firm! Our industry analysis section provides an exceptional discussion of business and market trends. The book includes statistical tables covering revenues for several industry sectors. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key data.

Plunkett's Renewable, Alternative & Hydrogen Energy Industry Almanac 2007 Jack W. Plunkett 2007-01 There are few industry sectors in the world today with more potential than renewable and hydrogen energy. Clean, green and renewable energy technologies are receiving immense emphasis from investors, environmentalists, governments and major corporations. Today's high prices for crude oil, coal and natural gas will increase the demand for renewables of all types. A wide variety of technologies are being researched, developed and implemented on a global basis, from Stirling engines to wind power, from advanced nuclear plants to geothermal and fuel cells. Our analysis also includes tar sands (oil sands), oil shale, fuel cells, clean coal, distributed power, energy storage, biofuels and much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. This book also includes statistical tables, an industry glossary and thorough indexes. The corporate profiles section of the book includes our proprietary, in-depth profiles of the 250 leading companies in all facets of the alternative, renewable and hydrogen energy business. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful corporations in the business. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

Plunkett's Infotech Industry Almanac 2008 Jack W. Plunkett 2008-02 Plunkett's InfoTech Industry Almanac presents a complete analysis of the technology business, including the convergence of hardware, software, entertainment and telecommunications. This market research tool includes our analysis of the major trends affecting the industry, from the rebound of the global PC and server market, to consumer and enterprise software, to super computers, open systems such as Linux, web services and network equipment. In addition, we provide major statistical tables covering the industry, from computer sector revenues to broadband subscribers to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. The corporate profile section provides in-depth, one-page profiles on each of the top 500 InfoTech companies. We have used our massive databases to provide you with unique, objective analysis of the largest and most exciting companies in: Computer Hardware, Computer Software, Internet Services, E-Commerce, Networking, Semiconductors, Memory, Storage, Information Management and Data Processing. We've been working

harder than ever to gather data on all the latest trends in information technology. Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies. Purchasers of the printed book or PDF version may receive a free CD-ROM database of the corporate profiles, enabling export of vital corporate data for mail merge and other uses.

Product-Led Growth Wes Bush 2019-05 Can your software sell itself? Convention and the trillion-dollar sales industry claim that it's impossible for your product to sell itself. Yet successful software businesses like Slack, Dropbox, Atlassian, and HubSpot make millions selling to customers who never once reached out to a sales rep. In Product-Led Growth: How to Build a Product That Sells Itself, growth consultant Wes Bush challenges the traditional SaaS marketing and sales playbook and introduces a completely new way to sell products. Bush reveals how your product--not expensive sales teams--can be the main vehicle to acquire, convert, and retain customers. In this step-by-step guide to Product-Led Growth, Bush explains: Why you should flip the traditional sales process on its head and turn your product into a sales machine; How to decide whether your business should use a free trial, freemium, or hybrid model; How to turn free users into happy, paying customers. History tells us that "how" you sell is just as important as "what" you sell. Blockbuster couldn't compete with Netflix by selling the same digital content, and you need to decide "when" not "if" you'll innovate on the way you sell. Are you going to be product-led? Or will you be disrupted, too?

Sleepless Charlie Huston 2010 What former philosophy student Parker Hass wanted was a better world. A world both just and safe for his wife and infant daughter. So he joined the LAPD and tried to make it that way. But the world changed. Struck by waves of chaos carried in on a tide of insomnia. A plague of sleeplessness. Park can sleep, but he is wide awake. And as much as he wishes he was dreaming, his eyes are open. He has no choice but to see it all. That's his job. Working undercover as a drug dealer in a Los Angeles ruled in equal parts by martial law and insurgency, he's tasked with cutting off illegal trade in Dreamer, the only drug that can give the infected what they most crave: sleep. After a year of lost leads and false trails, Park stumbles into the perilous shadows cast by the pharmaceuticals giant behind Dreamer. Somewhere in those shadows, at the nexus of disease and drugs and money, a secret is hiding. Drawn into the inner circle of a tech guru with a warped agenda and a special use for the sleepless themselves, Park thinks he knows what that secret might be. To know for certain, he will have to go deeper into the restless world. His wife has become sleepless, and their daughter may soon share the same fate. For them, he will risk what they need most from him: his belief that justice must be served. Unknown to him, his choice ties all of their futures to the singularly deadly nature of an aging mercenary who stalks Park. The deeper Park stumbles through the dark, the more he is convinced that it is obscuring the real world. Bring enough light and the shadows will retreat. Bring enough light and everyone will see themselves again. Bring enough light and he will find his way to the safe corner, the harbor he's promised his family. Whatever the cost to himself.
